Dear friends,

There is a huge amount of information being thrown at us on the coronavirus, much of it conflicting and confusing. Sometimes it's hard to know who and what to believe.

In pre-coronavirus times, I normally spent about two hours a day reading emails sent my way and exploring the information in them. In recent months, my email volume has increased four times with hundreds of caring people sending me information on the virus. I've been swamped trying to keep up with it all.

**The filter I am using now more than ever is to focus on information from reliable sources than can be verified by anyone. Thankfully, there are other excellent researchers with a similar philosophy. I want to recommend their excellent videos on the coronavirus here.**

### Robert F. Kennedy, Jr. on the coronavirus

[Robert F. Kennedy, Jr.](#) is a renowned lawyer who shifted from serving as a successful environmental lawyer to focus on advocating for [safe vaccines for our children](#). In the 24-minute video at the link below, he reveals excellent inside information on the possible origins of the coronavirus, how virology labs develop vaccines, and the risks of developing a vaccine for the coronavirus. **Though some of his information is not easily verifiable, his access to inside sources and thorough knowledge of the topic make this well worth listening to.**

### Excellent video on Bill Gates program to vaccinate the world

To understand how the coronavirus is being used to monitor and better control humanity, don't miss the important 40-minute video at the link below. **This well researched video shows how Bill Gates is using**

fear around the coronavirus to push through his long-held agenda to **vaccinate the whole world and to require a "digital certificate"** as a way to ensure everyone has been vaccinated. The coronavirus is the perfect storm for him to bulldoze ahead with his agenda. For other verifiable information showing how Gates' vaccine agenda has already harmed countless thousands of children read [this excellent article](#) by Robert F. Kennedy, Jr..

### Revealing video on potential forced quarantines

The educational and well researched 20-minute video at the link below gives **undeniable evidence for plans to test and track everyone in the U.S. on the coronavirus, and even to remove people from their homes and mothers from their children if they test positive for the virus** and there is no separate bathroom for home quarantine. The presentation reveals detailed plans spelled out in video clips of government officials speaking and screenshots of government websites.

The above video doesn't mention the bill proposed in the U.S. House of Representatives - HR. 6666, which you can find on the the website of the US Congress at [this link](#). It authorizes \$100 billion (yes *billion!*) for 2020 "to conduct diagnostic testing for COVID-19, to trace and monitor the contacts of infected individuals, and to support the quarantine of such contacts." That is more than the entire 2019 budget (**\$68.4 billion**) of Health and Human Services. Is there something fishy here?

### Most inspiring alternative view on the coronavirus

Zach Bush is an amazing, triple board certified MD. He's brilliant and has led a most unique and colorful life. This wonderfully inspiring interview with him about the coronavirus is most fascinating! **He even describes how he publicly predicted a year ago that the next major epidemic would originate in Wuhan.** The interview gets deeper as it goes and ends on an incredibly inspiring note. Don't miss this awesome tour de force by one who is incredibly knowledgeable in this field.

### For those who want more

A controversial banned [video interview with Dr. Judy Mikovits](#) also raises many questions. Renowned lawyer [Robert F. Kennedy, Jr.](#) wrote an [riveting forward](#) to [Mikovits' book](#) revealing how Anthony Fauci and others stole some of her research and destroyed her career to prevent an important treatment she co-discovered from moving forward. [This webpage](#) also supports many of her claims.

In his thorough research, [Jeremy Hammond](#) found a **presentation by CDC's media relations chief Glen Nowak titled, "Recipe for Fostering Public Interest and High Vaccine Demand."** It promotes using **fear to increase public demand:** "Medical experts and public health authorities (e.g. via the media) state concern and alarm (and predict dire outcomes) - and urge influenza vaccination." And this: "Health literacy is a growing problem." Watch this part of the very well researched longer video at [this link](#). Verify the CDC presentation on [this webpage](#).

Some of these videos raise as many questions as they do answers, but at least you will be better informed to make decisions about your health and that of your loved ones as this crisis unfolds. I wish you all the very best in moving through these most intense and challenging times. And remember, we're all in this together.

With very best wishes for ever greater health and a transformed world,

[Resilience Guide for Coronavirus Times](#)

- 1) Check-in so you don't check-out – be mindful of when you feel afraid and overwhelmed and how that might affect your ability to balance your thinking with different perspectives.
- 2) Question what you read – don't fall for the old maxim "if it bleeds, it leads!"
- 3) Follow the money. Who is profiting both financially and politically from this so-called pandemic?
- 4) Find the people in your life who can question WITH you what part of the narrative is being left out.
- 5) Practice self-care – any activity, hobby or way of eating that helps you remember your best self. We need to feel well in order to think well.
- 6) Physical distancing does *not* mean social distancing. Crisis brings out the humanity in us so that we are closer and more connected than ever. We are all in this together.
- 7) Recognize this is a powerful opportunity for learning and growth. And we always have a choice between fear and love. Let us acknowledge any fear that arises, yet then choose love.
